Allowable Subject Matter

1. Claims 1,3-5, 7-21, 25, 27-30, and 35-37 are allowed.

2. The following is an examiner's statement of reasons for allowance:

The claimed invention has overcome the Ginter, et al. reference. Ginter discloses an invention that includes producing the (n)th key file including the (n)th set of black box keys and the old sets of black box keys as an output and the key manager producing the (n)m key file encrypted according to a secret, the apparatus further comprising an injector receiving the (n)th executable from the code optimizer / randomizer as an input, injecting the secret into the (n)th executable in a pre-determined location, and producing the injected (n)th executable as an output, wherein the injected (n)th executable and the encrypted (n)th key file are to be forwarded to the requesting DRM system. However, whether Ginter or in combination of prior arts would not make it obvious to teach the claimed invention of a key manager receiving the (n-1)th key file and the (n)th set of black box keys as input, extracting the old sets of black box keys from the (n-1)th key file, and such that the DRM system resides on a computing device having a hardware ID (HWID) associated therewith, wherein the HWID is included in and obtained from the (n-1)th key file, and wherein the injector injects the obtained HWID into the (n)th executable in a pre-determined location. Hence, the claimed invention is allowed over art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
